

Year 3 Newsletter

April 2017

Welcome to Term 5.

In History, we will be researching the Anglo-Saxons and finding out the impact that they made to our everyday life. In Literacy we will be using the facts found to create non-chronological reports. In Reading, we have begun to study 'Beowulf'. In Maths, we are looking at vertical addition and subtraction of money; multiplication and division involving measures and finally the properties of lines. To help at home, you could find the total of different costs and work out the change given as this would help the children appreciate Maths in the real world. Our Science topic is Light and in DT we shall be making some Anglo-Saxon inspired bags and jewellery.

Brain Builders

Thank you for the wonderful selection of projects last term. The Brain Builder this term coincides with our History theme - "Why did the Anglo-Saxons settle?" We are looking forward to seeing your fantastic work which needs to be given in at the beginning of the last week of term. Please could these be no bigger than A3 in size due to the lack of space in classrooms.

Book Fair

Dear parents and carers, Thank you everyone for supporting the book fair at the end of term 4. We sold over £1000 worth of books which meant the school made £600 worth of commission to spend on topping up reading areas in classroom. This is an amazing amount raised and the support you all gave is very much appreciated. Happy reading! Miss J Capes, Reading Leader.

Author Visit

During the week beginning 15th May, the author, Ian MacDonald, will be working with Year 3 to promote story writing.

Mathletics Online Learning

Each week your class teacher will be setting Mathletics homework. Please support your child each week to complete the set tasks. You can access Mathletics through the following web address: www.mathletics.com Please speak to your child's class teacher if you are unsure of your child's login or need support to use Mathletics.

Thank You

Many thanks to all those who were able to attend our class assemblies and our classroom exhibitions. It was great to celebrate the children's work together.
